3.0 Contact management

Overview

We provide professional handling and assessment of all enquiries and complaints received, either through automated means (on-line and interactive voice response) or direct contact with consumers.

Our contact management is designed to identify non-compliance or compliance with our Code, through the collection of evidence from consumers, and to prepare the way for further investigation and enforcement where required. We do not seek to provide resolution of individual complaints (consumers are directed back to their network, or the provider of the service, and only to revert to us if they remain unsatisfied), but we will support individuals where appropriate and proportionate in the line of making further regulatory enquiries.

Our broad scope of operations is:

- We will have received over 470,000 contacts from consumers by the end of this current financial year, either online (including use of Number Checker) and by telephone;
- We deal with approximately 90% of these contacts through automated means (as well as Number checker, we use interactive voice response on our phone systems);
- As of a rolling 12-month period to the end of Quarter 2:
 - we processed 9,200 online complaints following use of Number Checker;
 - we responded to over 24,500 telephone calls;
 - after filtering of enquiries, roughly 52% of those telephone calls were complaints;
 - in total, we received just under 22,000 complaints.

Comments

Contacts have declined significantly in the last two quarters. This decline coincides with new MNO rules introduced in November 2016, and the new Special Conditions we introduced in January 2017.

In comparison with the second quarter of 2016/17, the second quarter of 2017/18 showed:

- Total contacts are down by 70%;
- Complaints are down by 64%;
- Online non-broadcast competitions and adult services remain the primary service categories related to complaints.

3.1.2 Contacts per month

Comments

Please note: starting in January 2016, the metric of Phone Contacts includes consumer enquiries which have been handled by our IVR system. Prior to January 2016, the metric of Phone Enquiries only includes consumers who spoke directly to the call centre, but did not result in a complaint. Therefore the totals for the Contacts per month and Contacts per quarter will not equal the Contacts per FY to date, in order to ensure like-for-like comparisons.

Definitions

Complaints: a consumer expression of discontent about a discernible, potential, controlled premium rate service (PRS)

Phone Contacts: consumer contacts by telephone that do not lead to a new complaint

Phone Enquiries: consumer contacts to the call centre not related to new complaints

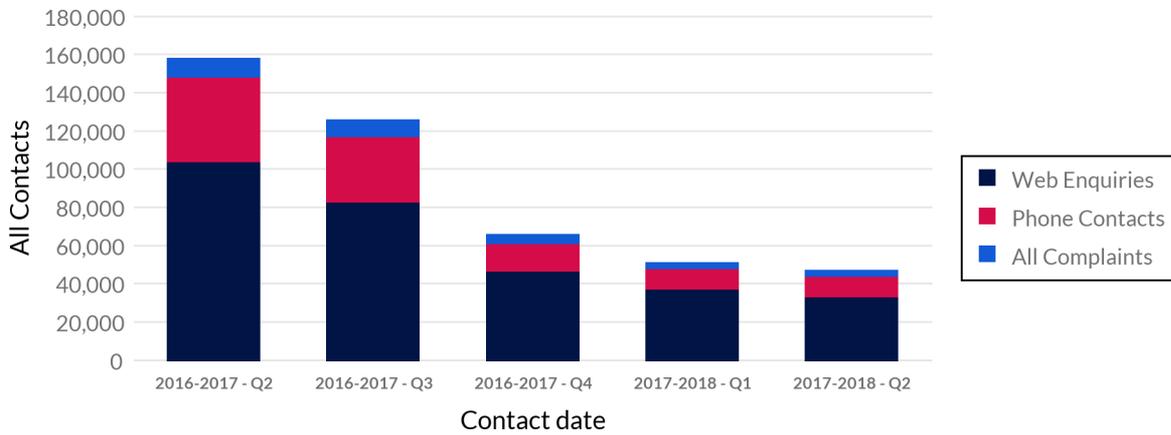

Web Enquiries: single use of a web-based form which returns provider information and contact details for a PRS number or shortcode, which does not lead to a complaint

4.0 Investigations and enforcement

Overview

We have an outcomes-based Code of Practice, under which we are committed to ensuring we thoroughly investigate cases fairly and enforce them proportionately.

With our Contact Management team efficiently processing complaint information and market intelligence, up to 600 separate cases are put forward each year for further consideration by the Investigations and Enforcement team. The scope of their activities includes:

- undertaking detailed further investigations to decide whether cases should be: closed; held under review; resolved informally (Track 1); or resolved formally (Track 2);
- engaging with service providers to allow them to understand the issues under consideration and respond within reasonable timescales;
- ensuring there is a clear and robust audit trail for all decisions taken;
- building complex and comprehensive legal arguments and evidence to bring any case before a Tribunal, balancing robustness with timeliness;
- dealing with all post-adjudicatory work, including breaches of sanctions and naming cases.

Comments

In March 2016, we closed 93 historic service review cases. In March 2017, we closed over 80 Initial Assessments from the preceding financial year.

5.0 Industry support

Overview

In addition to our investigatory and enforcement work, our regulatory toolkit also includes identifying and applying policy solutions to issues arising more generally in the market. The scope of the industry support we are able to provide includes:

- Holding our Code of Practice and supporting procedures to constant review, and updating guidance around these as necessary.
- Responding to requests for compliance advice.
- Providing the facility for industry Due Diligence to be undertaken.
- Commissioning industry-wide research initiatives.
- Finding ways in which barriers to high compliance can be broken down. These include working with an expanded and enhanced Industry Liaison Panel; making effective use of its Rapid Response Team mechanism where required; and our detailed programme of one-to-one meetings and engagement with industry representative bodies, network operators and service providers.

Comments

Demand for compliance advice peaks when we launch a new Code of Practice. This occurred in both July 2015 and June 2016.

6.0 Market context

Overview

Through the nature of our operations and the data we collect, we are able to provide an authoritative overview of the PRS market:

- The financial size of the PRS market is measured initially through the revenues collected by network operators, and then through the outpayments they make to aggregators after retaining their share of the value chain. It is to the outpayments figure that the industry levy is applied.
- Compliance with our Code of Practice includes mandatory registration of services, although we provide financial exemptions for small businesses and charities. Through this, we are able to demonstrate the number of organisations engaged in the provision of PRS services.
